RAILROAD NEWS NOTES

Alton Wreck Near Prentice—Wabash Veterans Banquet in St. Louis To Night—Items of Interest and Personal Mention

A slight mishap occurred on the Alton, one mile south of Prentice, Friday about noon. Local freight 134, in charge of Conductor Carpenter and Engineer Yonkers, was running along at a good speed when a drawbar broke, and five cars were derailed. The wreck, pulled by engine 342 and in charge of Conductor Draper and Engineer Simpkins, was sent from Roodhouse. The machine was too small for the work and it was sent back to Roodhouse and another wreck was brought from Bloomington. The entire afternoon was occupied in picking up the wrecked cars and No. 10, the St. Louis passenger, was delayed about thirty minutes.

Mr. and Mrs. T. Rice Smith will leave this morning for St. Louis, where they will be guests of honor this evening at the annual reunion of the Wabash Veterans' corps, to be held at the Mercantile club in the Lincoln Trust building.

The organization of the Wabash Veterans' corps was begun in 1901, and was completed with the adoption of by-laws in 1902. Its object is to promote social intercourse, foster fraternal feeling and preserve service records of its members and the history of the road. The headquarters are at the general offices of the Wabash Railroad company in St. Louis.

The annual meetings of the association are held the last Saturday of April of each year, unless ordered otherwise by the executive committee. It is the duty of the secretary to keep a record of all meetings, and also to keep a list of members and the record of their service.

The requirements for membership in the association are described as follows: "Any person in the service of the Wabash Railroad company, who has been in the service of said company and its predecessors for fifteen years, whether continuously or not, at the time of his application, shall be eligible to membership on making written application, giving his history in the service; and his membership shall date from the approval of his application by the executive committee, and shall continue only so long as such person shall remain in the service of said company or its successors."

Provision is made for honorary membership of those who have previously been in the employ of the company or its predecessors, but who are no longer in the service.

The Veterans' corps is a popular institution among the Wabash employees, who always eagerly anticipate the annual banquets. Mr. and Mrs. Smith are honored on this occasion by the designation of the meeting as the "Smith Centennial," in recognition of the 101 years which they have spent in the service of the road. While they are absent from the city the local office will be in charge of Mr. McCoy, of Springfield.

Engine No. 6 has gone to Springfield for duty, after undergoing a complete overhauling at the local shops.

The steam shovel, which has been working at Harmon's curve on the Burlington for the past few weeks, has completed its work there and is now at work on the first hill south of this city, near mile post No. 12. The clay which is being cut from the hill will be used to repair bridge No. 128, which is near the hill.

Mr. Powell of Peoria, general agent for the M. D. P., was in the city Friday calling on the local railroad officials.

It is semi-officially given out that the Alton will have a sum paid to aggregate between \$3,000,000 and \$5,000,000, available for betterments on July 1. Why the money will not be available before that date is known only to the powers that be. There is some good reason for it, but that is a secret that is tightly locked in the breasts of the financiers. It is presumed that the betterments for the entire Harriman syndicate will be authorized at the same time. The exact sum to be turned over to the Alton will be large, as the improvements to be extensive. The Illinois-Murrayville extension will likely cost several hundred thousand dollars for material and labor, while the right of way will probably cost an equal sum. It is perhaps safe to say that a half million will go in that direction. The double track between Bloomington and Springfield will no doubt run far above \$200,000, perhaps nearer a million. The change in alignment on the western division, the new power and other expenses will consume vast sums, but it is believed that every dollar will be profitably expended and that the results will be commensurate.

The Alton has secured the contract for the movement of many hundred cars of steel from Pittsburg to the Union Pacific at Kansas City. The first shipment of twenty cars were delivered Thursday, being brought from Pittsburg over the Vandallia and delivered to the Alton at Minier. The 338, Grey, went west last night yesterday morning as second 37 to pick up the twenty cars, and it is promised that an average delivery of ten cars per day will be made to the Alton at Minier. This will be a big factor in freight business between Bloomington and Kansas City.

WHY DOES

A BABY CRY?

Because it is either hungry or in pain. Properly nourished it will usually grow up right and be comfortable—that's the principal thing for a baby. If its food lacks strength and nourishment, add Scott's Emulsion at feeding time. A few drops will show surprising results. If a baby is plump it is reasonably safe. Scott's Emulsion makes babies plump.

SPRINGFIELD NEWS NOTES

Former Lieutenant Governor W. A. Northcott Friday morning purchased from J. McCan Davis the latter's residence at the southwest corner of Sixth street and Enos avenue, the consideration being \$10,000. Mr. Northcott will sell his house in Greenville. It is understood that he and Mrs. Northcott and their daughter will remove to Springfield about the middle of June.

The residence which has changed hands was built seven years ago and is among the most beautiful residences in the city. Mr. and Mrs. Davis spent the past winter at the Leaning hotel and will continue to reside there. A decision to discontinue housekeeping arrived at some months ago, led to the sale of their residence property.

The bids for the construction of the Tanner memorial monument at Oak Ridge cemetery were opened Thursday by the special committee composed of John W. Bunn, J. R. B. Van Cleave and P. J. Whittemore, and it was found that the Culver Construction company has submitted the lowest bid. Bids ranged from something less than \$17,000 to \$25,000.

Colonel Culver agrees to construct the monument from any kind of granite that will be acceptable to the members of the board of directors and the family of Governor Tanner. A meeting of the directors will be held at 2 o'clock next Monday afternoon and the contract will probably be let then.

SAVE YOUR HEALTH

It Is Worth Saving and Some Jacksonville People Know How to Save It.

There are some people who take their lives in their hands by continuing to neglect their kidneys when they know these organs need help.

Sick kidneys are responsible for an immense amount of suffering and ill health, but there is no need to suffer or to remain in danger when all diseases and sufferings arising from sick kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills.

Here is the statement of one Jacksonville person who has reclaimed good health by the use of this remedy.

A. H. Cottman of West Morgan street, dealer in second-hand furniture and stoves, says: "Across my loins just over those organs there was a heavyaching pain. I could not rest long, either sitting or lying, and in the morning I always felt more tired and depressed than when I went to bed. The pains became much more persistent and the kidney secretions were highly colored and irregular. In fact, my general health was run down. I tried different medicines, but remained the same. Seeing Doan's Kidney Pills highly recommended, I got a box at Dr. H. Lee Hatch's drug store and used them. They worked like a charm, giving a healthy and natural action to the kidneys, and relieved my back of distressing aches and pains."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

MERRY BANQUETERS!

High School Alumni and Friends Unite in Grand Feast.

The crowning event in the high school year took place at the West State street building Friday night, when nearly 200 merry makers met in the spacious rooms and halls to enjoy a social function which is always delightful. The occasion is one which is always looked forward to with pleasure and those who organized the society and have ever wrought faithfully to keep up the high school spirit are deserving of great praise. The members of the class of 1906 were of course the center of attraction and arranged in a semi-circle they received the good wishes of alumni and friends with becoming grace and dignity. They indeed presented a fine appearance and one couldn't help meditating on the possibilities contained in the company of the bright young people. Those who had graduated years before, friends of the school and others, were in tendering good wishes to the young people now on the threshold of life, with the world and its attractions before them.

After an hour or two had been pleasantly spent in this manner all were invited to the lower hall, where were spread small tables well supplied with a great abundance of good things. Polite waiters and plenty of them attended to the wants of the guests and nothing was lacking to make this part of the program a success, and all seemed to enjoy it thoroughly. The high school orchestra added largely to the pleasure of the evening with fine music.

The banquet ended, the toasts came next and this part of the evening was also well enjoyed. It is practicable to present but a short outline of the remarks.

A. T. Capps tendered the new members of the class of 1906 a cordial welcome to the ranks of the high school alumni. The society, now numbering nearly 700, is an important factor in the cause of education and great things may be done by the members. Much should be done to glorify the schools which should be free from politics and all undue influences.

Cadie Funk responded for the class. Joy and sadness are mingled on this occasion. In the class quantity has given way to quality. Credit is due the faculty for what has been accomplished by the class. The teachers will miss the class not a little in many ways, and we sympathize with them in our loss. We mean to live for progress and improvement and prove worthy members of the Jacksonville High School Alumni association.

Mr. Capps was then introduced as toastmaster of the evening and performed his duties in a happy manner. He said it was pleasant to gather on these occasions and greet both the old and the new members. The class was large, but of thirty-five members had but thirteen boys, which promised poorly for educated husbands. The association should take an active interest in public schools and aid them in every way possible. The pleasant part of the evening was enjoyed and work would begin.

The first sentiment was "New Members in the High School," Superintendent Webster.

Nearly all agree that the high school follows the grades, which once existed complete in themselves. The high school has had much opposition and has had many opponents. There are objections to and arguments for the high school, which has been a great benefit to the rising generations. There should be certain fundamental principles on which the structure should be built. When electives were first mentioned there were many objections to them. Our school has been complimented by being placed on the list of those whose graduates are admitted to the principal universities. Care has been taken to have the pupils meet the teachers socially. When the alumni go out as graduates do not forget the school and cease study. Organize for the pursuit of some definite course before you and keep the works of the greatest minds. Stand for activity and do your best for the high school.

"German Student Life" was the theme assigned Mrs. Robinson. The German university differs from those in this country. A great freedom is enjoyed by teachers and pupils, called the liberty of learning. It does not in any way control the life of the student who is supposed not to need anything of the kind. The object is to develop the student for special service. Law, medicine and philosophy are the principal studies they select. Precedent has much to do with the choice of students. All classes are represented. In many ways the German universities are superior and offer great facilities for advancement.

"The College Man" was discussed by Howard Brown. The college man leads a strenuous life. The class of '06 is very promising. A college education should knock off a man's rough corners and at him for daily life. Dr. Josephine Milligan told of "The Golden Days." The remarks of the lady abounded in wit and humor and happy allusions to the days gone by. The effort was thoroughly appreciated by all fortunate enough to hear it. She kindly admitted that the true golden days are not all in the past, but are to day, when all unite in making them the best possible. The remarks were excellent.

Miss Carrie Dunlap spoke next on "High School Organization." Every member of '06 will agree that high school organization is of great value. Societies, athletics, all the bodies which

have for their object the betterment of pupils are invaluable. Athletics for girls, the orchestra, the drama club and all have the best results. The high school paper is of great value. The dramatic work teaches the pupils to work in harmony and live in groups larger than this. Neither rhyme nor reason can express the value of such school organizations.

Dr. C. H. Hammelkamp, of Illinois college, spoke on "The High School and the College." There have been many changes in both the schools and colleges. It is said that the colleges are getting nearer the schools and the latter have in turn drawn nearer the colleges. Manual training has caused other things to give way to something better. If we are ready for experiments, let them be of the best. Colleges have changed for the best and some doing what nothing else can accomplish. Colleges insist on higher qualifications generally and then offer a large range of subjects. The college and high school each exists for the other. The college is the people's university and is more and more used as such, both are meeting each other half way. We want the relations between the college and high school to be cordial. Use our athletic track and be at home with us.

The program was thus concluded and the whole affair was voted most happy. All the speakers did admirably and the best of feeling prevailed. Long live the Jacksonville high school.

OFFICERS CHOSEN

The high school alumni chose officers Friday afternoon as follows:
President—H. C. Montgomery.
First vice president—Ralph Reynolds.
Second vice president—Martha J. Morrison.
Third vice president—Jean Ball.
Treasurer—Paul Whitney.
Secretary—Mrs. J. K. C. Pierson.
The class colors, purple and white, were predominant in the lovely iris flowers in the rooms of the high school building.

A DESERVED TRIBUTE

The Advance, published at the School for the Deaf, says: "Mr. William Walter Moore has resigned his position as bookkeeper here and gone to Mississippi, where he expects to engage in business. Mr. Moore was appointed bookkeeper in 1903 and being a most efficient officer it is a matter of regret that he should see fit to sever his connection with our institution. His resignation was accepted very reluctantly, and he was urged to reconsider it, but he felt that his best interests would be more fully subserved by the change in location. Mr. Moore may congratulate himself that he retires with the universal good will of his institution colleagues. Always accommodating he made many friends here, who wish him abundant success in his new location."

PAIR OF ARTISTS

Delightful Comedy Produced on New Stage at School for the Deaf in the Sign Language.

A delightful comedy, entitled, "A Pair of Artists," was staged at the School for the Deaf Friday evening for the benefit of the students and employees, and as many of the friends as could find room in the chapel. The cast was made up from the teaching force of the institution, with one exception, and the lines were given in the sign language, making a novel production and one that the pupils, as well as others could enjoy.

The feeding and enthusiasm which the members of the cast put into the production was a revelation in many ways. We are accustomed to seeing facial expression and gestures used to supplement the use of the voice, but in this instance the entire effect was dependant upon such expressions and gestures and the result was truly surprising. Not a word was spoken and yet the entire comedy of six scenes was presented to the audience in a perfectly understandable manner. The situations could be followed and understood almost as readily as if the words had been audibly spoken.

The play was given especially for the children, most of whom had never before seen such a production, and their delight was beautiful to see. Five of the members of the cast are mutes or semi-mutes, but the ability which they displayed would win them laurels anywhere. It was what would be called an "all star" cast in the truest sense of the word, as each was chosen for his special adaptability to the character, and filled it in a manner which left little to be desired. The play was given under the direction of Mrs. H. T. Richards, but the performers all worked together to make it a success.

The cast of characters, scenes and synopsis of the plot are as follows:

'COLLEGE SING'

Unique Event in Woman's College Calendar Enjoyed on Campus Friday Evening.

The second annual "Sing" by the seniors of the Illinois Woman's college was given Friday evening on the campus. The entire event was most pleasing and unique. The lawn was profusely decorated with Japanese lanterns, electric lights, class colors and pennants. A large audience was present and entered heartily into the splendid program which was arranged with especial regard to the popularity of the songs. Each person present was given a large program containing the words of all the songs. The senior class led the singing from the front steps. A special feature of the program was "Estudiantina," the senior song.

The program was as follows:
I. W. C. Song (words by Golden Berryman).
The Loreley.
Co-Ca-Che-Lunk.
Illinois.
Where, O Where.
Estudiantina (Senior song).
Nut Brown Maiden.
The Quilting Party.

GOLD MEDAL CONTEST.

An audience of small proportions was present at the Christian church Friday evening to witness the W. C. T. U. gold medal contest. Miss Jennette Taylor was awarded the medal. The judges were Dr. Grace Deway, Mrs. P. O. Thompson and Prof. W. O. Beal. The union expects to hold one more contest in this city, after which they will hold several in different parts of the county.

EXCITING RUNAWAY

Team Belonging to Peter Schirz Ran Madly West on Court Street—Collided With Farm Wagon.

A team of horses attached to the Schirz milk wagon ran away Friday evening about 5:30 o'clock. One of the horses, a bay mare, had its right hip fractured and the right front wheel of the wagon was torn off. Peter Schirz was driving the team and left them standing near Passavant hospital while he entered the building to deliver some milk. While Mr. Schirz was absent the team ran up East Court street toward the square at breakneck speed and rushed into a farm wagon owned by James Farmer, of the Bend neighborhood. The two wagons collided with such force that the milk wagon team was turned completely around until they faced the opposite direction. A gray horse attached to the farm wagon was thrown to the ground, but was not injured. The other team was not so fortunate, for they were both thrown off their feet and fell upon the hard pavement. The horses were taken to the Kennedy livery barn and Dr. C. E. Scott was called. Although both of them were thrown, the bay animal was the only one injured. Dr. Scott found that her right hip had been fractured, and unless it develops that she has been injured internally the animal may recover. As the team came up East Court street a number of people were crossing the street and several buggies were standing in the right of way. A general scramble was made to get out of the road and the result would have been a serious accident had not all succeeded. Mr. Farmer, whose wagon was struck, saw the frightened animals coming toward him and jumped from his wagon just as the two vehicles collided.

The team has never been known to run away before. Both animals were of a gentle disposition and Mr. Schirz never found it necessary to tie them, although no team should be left standing in the street untied. It is generally supposed that the animals began quarreling and biting and the runaway was the result.

Free admission to carnival grounds all next week.

TRACK TEAM LOST.
Illinois college lost the track meet with Knox college at Galesburg Friday by one point, the final score being 58 to 59. Such a defeat is by no means a disgrace and in view of the fact that this is the first track meet the Illinois team has lost in three years the showing made is a most creditable one. The members of the team are expected home to day.
